TO WHOM IT MAY CONCERN

Dear Sirs,

re: GHOST PRACTICE

From the start of this process with the initial demonstration to our current situation where we are comfortable and happy with Ghost Practice, we have experienced a superior level of professionalism and dedication from the staff at Ghost Practice.

The implementation and conversion processes were capably and efficiently handled by Kasturi Muruvan who was always available to handle any difficult staff members, in a firm and respectful manner.

We have found Ghost Practice invaluable in assisting us with the day to day running of our business which has improved our cash flow and management of the business. The reporting functions in the program are extensive yet logical, and with time we have selected the daily/weekly/monthly reports that meet our requirements. We appreciate the fact that senior management has attended at our offices and telephonically on numerous occasions to go over reports, and in this way educate us further in the management of a legal practice.

Due to the basic principle of constantly working within the Ghost Practice program, all details are captured against the files, providing a comprehensive history and data for our clients at any given time. One of the most important factors for us has been the large increase in fees generated due to the detail reflected on the invoices.

ATTORNEYS, NOTARIES & CONVEYANCERS

There is no doubt in our minds that we have made the right decision in changing to Ghost Practice and would not consider using any other service provider.

Yours faithfully,
