- Contribute to the architecture, design, development, and maintenance of Web and Desktop applications using the C# language and the Microsoft .NET framework.
- Follow best software engineering practices.
- Exercise version control discipline to maintain source code.

Skills and experience you bring to the role:

- Minimum 3-year IT-related degree or diploma.
- 3+ years of solid industry experience in designing and building software applications in C# and .NET.
- Practical experience in developing web, mobile, and desktop applications.
- Knowledge about server and cloud based technologies.
- Willingness to learn.
- Experience in .NET Core, ASP.NET Core and Angular all advantages.
- Analytical and logical problem-solving skills.
- SQL & relational database programming skills.
- Must have proven experience in HTML, CSS and JavaScript development.
- Must have proven experience in web back-end technologies (e.g. SOAP, REST).
- Experience in mobile development in Xamarin and/or NativeScript.
- Exposure to Microsoft Azure would be advantageous.
- Exposure to Scrum and Agile methodologies will be advantageous.
- Must be a South African citizen or hold valid work permit.
